

Riley Debski

Riley Debski is a Master's of Education student at the University of Pittsburgh specializing in Special Education and Secondary Mathematics. After obtaining her Bachelor of Science in Mathematics, Riley returned to Pitt to complete her Master's Degree. As part of Pitt's MOSAIC Program, Riley will be dually certified in the areas of Special Education and secondary mathematics upon completion of her program.

In her student teaching placement, Riley taught in two classrooms. She taught 11th-grade learning support chemistry and 12th-grade statistics. Both classrooms offered varied experiences within the same school setting to support Riley in her journey to becoming a certified teacher.
